### **Responses to Standards for Considering Changes in Zoning**

**1. The proposed change is not contrary to the Comprehensive Plan Requirements;**

The proposed request is not contrary to the Comprehensive plan requirements. The 0.644 acres site is currently zoned Residential Single Family – one and Commercial Professional Office, and the surrounding properties are zoned Residential Single Family – one, Heavy Commercial, and Commercial Professional Office and Residential Multiple Family making the zoning change compatible by acting as a buffer from Commercial to Residential Single Family – one further to the west.

**2. The proposed use being applied for is specifically authorized under the zoning district in the Land Development Regulations;**

This proposed use is specifically authorized as a special exception under the proposed zoning district in the Land Development Regulations.

**3. The proposed use will not have an adverse effect on the public interest;**

The proposed zoning change should have a positive impact on the public interest to develop land that has access to all utilities and roads which will increase land value and development potential as a commercial use.

**4. The proposed use is appropriate for the location proposed, is reasonably compatible with adjacent land uses and is not contrary or detrimental to urbanizing land use patterns:**

The proposed use is appropriate for the location and will complement the buffer from intensive Commercial zoning to the west to Residential Single Family One to the east.

**5. The proposed use will not adversely affect property values or living conditions, or be a detriment to the improvement or development of adjacent property;**

The proposed use should positively impact property values, living conditions and be an improvement to the adjacent property, and development of previously undeveloped land and a single family residence.

- 6. The proposed use can be suitably buffered from surrounding uses, so as to reduce the impact of any nuisance or hazard to the neighborhood;**

The proposed use can be suitably buffered from surrounding unlike uses to the east. The parcel is bounded to the south by a commercial building and two duplexes, to the west by a vacant commercial lot, to the north by the remainder of the owner's holding in this block, and to the east by a single family residence.

- 7. The proposed use will not create a density pattern that would overburden public facilities such as schools, streets, and utility services;**

The use will not create density patterns that would overburden any public facilities. The potential development impacts will be accounted for within the existing available amenities and is a buffer from the existing Commercial zoning.

- 8. The proposed use will create traffic congestion, flooding, or drainage problems, or otherwise affect public safety;**

The proposed use will not impact traffic congestion as existing streets provide adequate capacity for the additional traffic. There are City drainage swale to the south of the parcel. This project will not adversely affect public safety.

- 9. The proposed use has not been inordinately burdened by unnecessary restrictions;**

The proposed use has not been inordinately burdened by unnecessary restrictions.

Affidavit Attesting to the Completeness and Accuracy  
of the List of Surrounding Property Owners

I hereby certify under the penalty of law or the revocation of the requested approval sought that to the best of my knowledge and belief, the attached list constitutes the complete and accurate list of the property owners, addresses, and parcel identification numbers of all parcels and tracts within three hundred (300) feet not including intervening streets, alleys, or waterways, of the perimeter of the lands which are subjects of, or are contiguous to but held under the same ownership as, the lands subject to the application for a change in land use or zoning, said list constituting a portion of that application. This affidavit is made based upon an inspection of the tax rolls of the Property Appraiser of Okeechobee County as of April 1, 2022 and the Assertions made to me by members of that Office that the information reviewed constitutes the most recent information available to that office. I therefore attest to this 1<sup>st</sup> day of June, 2022.

**Subject: 608 Okeechobee, LLC Rezoning Application Traffic Statement**

Dear Mr. Smith:

Steven L. Dobbs Engineering, LLC, has completed an analysis of the traffic generation statement for the above referenced facility. The project is to change the existing Future Land Use (FLU) from the existing Single – Family Residential to Commercial.

This analysis was based on a spreadsheet distributed by the Florida Department of Transportation, which is based on the Institute of Transportation Engineers (ITE) Trip Generation Manual (8<sup>th</sup> Edition). For the existing land use, the results indicate the existing 1 Single Family home (ITE code 210) generates 19 total daily trips with 2 peak hour trips PM with 1 being in and 1 being out. For the proposed land use, the results indicate the 11.2 KSF of Medical/Dental (ITE code 720) generates 1,517 total daily trips with 145 peak hour trips PM with 39 being in and 106 being out. For a change in Peak PM peak traffic of 1,498 total trips with 143 peak hour trips PM with 38 in and 105 being out.

Should you have any questions or comments, please do not hesitate to call.

Sincerely,

**Steven L. Dobbs Engineering**
